

Salaried GP - 6 sessions per week ideally Wednesday, Thursday Friday

Chew Medical Practice is looking for an enthusiastic and dynamic GP to join our forward thinking, responsive and friendly team.

We are committed to providing accessible, high quality primary care to our 10,500 patients, situated in the heart of the beautiful Chew Valley, but are conveniently only 13 miles from Bristol and Bath, both of which are easily commutable.

We are a rural dispensing practice working out of our purpose built surgery, which opened in 2012. We are a training practice and teach all years of Bristol Medical students.

We enjoy our morning coffee break and lunch together, often with cake, which allows us to support each other, problem solve or simply chat about last night's TV. We are low visiting and our patients have excellent access.

We would welcome applications from newly qualified to experienced GPs.

For more information, please call Clare Watkins, HR Officer tel: 01275 332420 or email clare.watkins2@nhs.net. We would love to chat to you and would welcome an informal visit.

We look forward to meeting you.

Closing date: 4th September 2026
